YASHICA M

Artificial Intelligence & Data Science Engineer (Honors)

Email: yashica586@gmail.com | **LinkedIn:** linkedin.com/in/yashica-m-586-leadingstar | **GitHub:** github.com/yashica-tech-flare | Madurai, TN, India

PROFESSIONAL SUMMARY

Final-year B.Tech AI & Data Science (Honors) student (CGPA: 8.41/10) with 2 peer-reviewed publications and a research internship at IIT Jammu. Skilled in applied machine learning, convolutional neural networks (CNNs), Gemini LLM API integration, and full-stack web applications. Seeking entry-level AI/ML, Software Development, or Data Engineering roles.

EDUCATION

B.Tech in Artificial Intelligence & Data Science (Honors) — **2023 – 2027**
K.L.N. College of Engineering (Affiliated to Anna University) — **CGPA: 8.41 / 10** (through 6th sem)

Higher Secondary Certificate (Class XII) — **2023**
Annamalaiyaar Matriculation Higher Secondary School, Madurai — **Percentage: 82.83%**

EXPERIENCE & RESEARCH INTERNSHIPS

Research Intern — *RISE UP 2026, IIT Jammu* — **Jun 2026 – Jul 2026**

- Investigated heat transport in additively manufactured TPMS (Triply Periodic Minimal Surfaces) lattice structures for prosthetic socket thermal management.
- Implemented infrared thermography, heat-flux sensing calibration, and ML analysis using Supervised, Unsupervised, and Physics-Informed Neural Networks (PINN).
- Delivered peer-evaluated poster presentation at IIT Jammu RISE UP research symposium.

In-House Internship cum Project Work — *K.L.N. IRP* — **Jan 2025 – Dec 2025**

- Engineered structured beginner-to-expert learning stages, aptitude evaluation modules, and technical interview simulations for an AI career guidance platform.
- Architected company-specific technical round dashboards, candidate scoring pipelines, and analytics reporting.

AI (Python) Intern — *SkillForge* — **Dec 2024 – Jan 2025**

- Built, tuned, and evaluated supervised ML classification and regression models in Python.
- Automated dataset preprocessing, EDA visualizations, and cross-validation pipelines with Scikit-learn and Pandas.

PUBLICATIONS

- **AI NEWUS: An AI-Powered Career Guidance and Placement Preparation Platform**
  International Journal of Computer & Organization Trends (IJCOT) — May 2026
- **Federated Learning-Based Recommender System with Data Anonymization and Encryption**
  International Journal of Emerging Engineering Trends & Research (IJEETR) — March 2026

KEY PROJECTS

- **AI Newus — Career Guidance & Placement Readiness Web Platform** | *React, Node.js, MongoDB, Python*
  Full-stack platform delivering tiered career learning stages, interactive aptitude benchmarks, mock interview simulation, and company-specific assessment dashboards.
- **CVInsightAI — AI Resume Analyzer & ATS Optimizer** | *Python, Streamlit, Gemini API, PyPDF, gTTS*
  Interactive ATS analyzer parsing resumes against job descriptions, identifying critical keyword gaps, and generating text-to-speech audio feedback for job seekers.
- **Fashion-MNIST Classifier — Deep Convolutional Neural Network** | *TensorFlow, Keras, NumPy, Matplotlib*
  Trained custom CNN architecture classifying 10 apparel categories with >93% validation accuracy, confusion matrix analysis, and epoch loss visualizations.

TECHNICAL SKILLS

Programming Languages:	Python, Java, C, JavaScript, SQL
AI / Machine Learning:	Machine Learning, CNNs, PINN, TensorFlow, Keras, Scikit-learn, LLM API (Gemini)
Data Science:	Pandas, NumPy, Matplotlib, Seaborn, Data Cleaning, EDA, Data Visualization
Web & Automation:	React.js, Node.js, Streamlit, n8n, HTML5, CSS3, REST APIs
Databases & Tools:	MySQL, MongoDB, PostgreSQL, Git, GitHub, Jupyter, Google Colab, Anaconda

HONORS & ACHIEVEMENTS

- **Rank 1** — Foundation for Data Science (KLNCE, 1st Year Academic Excellence 2023–2024)
- **Elite + Silver Certificate** — NPTEL Human-Computer Interaction (IIT Delhi)
- **Skillrack Coding Excellence** — 500+ problems solved, 700+ points scored
